the hallding at Memphis for the Ransas City n's "Hed-Alte." Leary, ex-attorney-general of

special to the Genette. the physicians of Northwest Texas met by Abilene Saturday last to organize a Northwest Texas medical association. Dr. Stout, of Cisco, was elected president; Dr. Payne, of Comanche, first vice-yresident; Dr. Hollis, of Anson, second vice-president; Dr. Coleman, of Colorado, secretary and treasurer. The meeting was a most pleasant, harmonious and enthusiastic one. The association will meet tri-annually. The next meeting will convene in Claco the first Tuesday in Octobernexs.

Legitimate physicians throughout Northwest Texas are cordially and enrossily invited to meet the association at its next meeting, become members and participate in its deliberations.

DISTILLERS' WAR.

A Eliter Tussle Between the Distillers and Cattle Feeders' Trust and Non-Members of the Corporation-

KANSAS CITY, Mo., June 9 .- Mr. J. Diller, the well-known brewer, returned from Chlcago yesterday, where be has been for the last week looking into the matter pertaining to the coming war between the distilleries in the corporation known as the distillery and cattle feeders' trust and those not in accord with it. The indications point to a warm fight between these, and it is point to a warm fight between these, and it is stated the distillers not in the trust are preparing to carry the war into Africa, with plenty of money and plans partially perfected. The anti trust follows say they will soon be in position to cope with the output of the trust, both as to quantity and price. To attain this they are formulating plans and raising capital, says Mr., Diller, for the erection of two great distilleries, which will have almost as great a capacity as the combined distilleries of the trust. It is proposed to erect two distilleries at a cost of about \$2,000,000 each. Their joint capacity, will be about 20,000 bushels of grain daily, which will be great enough to cope with the combined output of the trust product north of the Ohio river. The location of the distilleries is not yet agreed upon, but it is likely that Kamass Chy will secure one of them. One of the capitalists directly interested is in Europe. Immediately upon his return it is asserted that the war will begin and the distilleries will be creeted and begin work in sixty days.

TEXAS STATE FAIR.

Arrangements For Derby Day-Loss in the Spring Palace Fire-Cattlemen Interested.

Special to the Gazette. Dallas, Tax., June 9.—The efforts being put forth by the Texas state fair and Dallas exposition-association indicate that the forthcoming state fair and exposition will be the most notable as well as the most successful in the history of the state. The race course is a very fine one and will be put in the very best possible condition for the great Texas derby which will come off on the opening day of the fair. This race will bring together some of the most noted flyers in the land, inasmuch as the money to be run for will probably not be less than \$10,000. Other

will probably not be less than \$19,000. Other scarcely less notable turf events will follow from day to day during the fair, giving lovers at turf sport an opportunity to witness some of she thest races ever seen in the South.

The burning of the Spring Palace at Fort Worth inflicted no inconsiderable loss upon the fair people in the destruction of a number of county withints that would have been brought here and exhibited during the fair. A number of the counties whose exhibits were destroyed, however, will be represented here by a creditable and artistic showing of their mineral, timber and agricultural products.

The interest already manifested by stockmen

ble and artistic showing of their mineral, timber and agricultural products.

The interest aircady manifested by stockmen indicates that the irrestock exhibit will be the best ever seen in the state. The long-norn has practically disappeared and the highest and best grated and blooded stock are becoming the common property of Texas fagmers and cattlemen, and they will have on exhibition hundreds of as fine animals at ever competed for the much prized blue ribbon.

Additional buildings will be erected, and such transportation facilities offered as will enable the crowds to be moved to and from the grounds with rapidity, safety and comfort.

The officers of the association are working with energy to scente from all parts of the state such exhibits as will show forth to the visiting thousands the infinite variety and inexhaustible character of the resources of Texas, and to that out they invite every county in the state to prepare such exhibits as they are able to make of those things that will best serve to advertise their respective counties.

HE WAS A SUCKER.

The Comforting Information Imported to an Old Man, the Victim of a Sharper-Special to the Gazette.

PARIS, THE., June 9 .- A fine skin game was worked on an old man from the Indian Territory in the Federal court room this afternoon. He was sitting in the back part of the house and remarked in an undertone to a companion that mother man had told a damp lie. A man who mother than had told a damn life. A man who heard him tapped the old man on the shoulder and told him to come with him, as he was an officer. They walked out, and when on the outside the old man wanted to know what he was wanted for. He was informed that it was for the old man in a rubble when. The old man wanted to have well as the contract of the old man wanted to the contract of t such the old man wanted to know what he was wanted for. He was informed that it was for swearing in a public place. The old man wanted to know if he could not compromise without going before the court. He was informed that he could for \$7.50. This he paid and returned to the court room. There he told a deputy marshal of what had been done and was comforted with the information that he was a sucker. Officers tried to find the sharper but failed.

DIED IN PRISON.

An Aged Man. Viciently Insane, Dies in Waco's Jan-

Special to the Gazette. Waco, Tax. , June 9 .- J. T. Cate died in the McLennan county fail to-day at the age of sixty ears. This old man was adjudged insane two years ago, and efforts were made to get him in the asylum at Austin. The officials reported the asylum at Austin. The officials reported "no room" and he was placed in the care of reletives in this county, who kept him until a few weeks ago when he became violent, necessitating his incarceration in the full. He died at 10:30 to-day from the effects of his malady. Col. Haywood Brahan, candidate for comptroller, in in the city to-day.

Mrs. J. Y. Ferguson, mother of Messrs, J. M. and W. S. Ferguson, principals in the public schools in this city, died in Hartsell, Ala., yesterday.

BROKER PELL.

He of Sixth National Bank Fame Gets Seven Years at Hard Labor.

New York, June 9,-Recorder Smythe of the general sessions court this morning sentenced Broker George H. Pell of the Sixth National bank working fame to imprisonment at hard labor for seven years and six months in the state prison.

Cleburne.

Special to the Gazette. CLEBURNE, TEX., June 7 .- The city board of equalization are in session. The board is composed of our best business men, and they will ndeavor to equalize taxes and put property at Its actual value.

A meeting has been called by a committee appointed by the board of trade to organize a stock company to build a cotton-seed ell mill. The meeting will take place Wednesday at 10 clock, A number of farmers and ginners will take stock

and the enterprise promises a success. Remarkable Rescue. Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family obyscian, but rose worse. Dally Review.

CFFIGH OF THE GARRYER. FORT WORTH, TEX., June 9, 1999. A general good trade prevailed throughout the city to-day, and indications for a good week for ousiness are first-class. Wholesale men are receiving splendid shipping orders for the season,

which indicates an encouraging outlook in the surrounding country.

Arrivals of country produce of all kinds were light to-day, still the supply was ample. Eggs are in better demand at present, and are slightly up, which may not could ue. Vegetables are plentiful, and the daily supply from the immediate vicinity of Fort worth is abundant. Changes in quotations to-day are few and of little importance.

The Rice Crop of 1890. INTERESTING INFORMATION AS TO PLANTING AND ACREAGE.

NORTH CAROLINA.

The following circular in regard to the growing rice crop, issued on the 2d inst. by Messrs. Dan Talmage's Sons, New York, states:

The crop seeded during April and May. Win-The crop seeded during April and May. Winter unusually favorable for preparations; nothing better could be desired. Slight increase of
acreage is reported in all tide-water sections,
and in fine shape for culture. The spring
freshet, often damaging, was light this year and
results beneficial. Crop growing finely; stand
very good. Upland culture shows diminution.
on account of discouraging results past two
vears. The crop of 1898 was miserable, unsatisfactory to farmer and miller alike. The crop of
1899 was of good quality, but in consequence of a
very dry summer, majority of sections produced
but about a half crop, and that sold at low figures. Result, many that had cleared lands for
the purpose of producing rice have seeded in
gons for pasturage.

SOUTH CAROLINA. Main crop already planted, but a little more will be put in during the present month Georgetown is larger than last year, and the crop is looking fine. The section on Sante river is about the usual acreage. Cooper river is badly hurt by salt, and some of the large est planters have determined not to try for any crop this year, Pon-Pon and Ashepoo are in need of rain. Combahee is in good condition, and fair supply of water. Tetal acreage more than for several years past, and the stand good. Outlook favorable for some increase in quantity, dependent, of course, on the season from now until havyest.

Early planters suffered somewhat from cold spells, which retarded the growth and injured the plant, but in the main crop has been seeded under favorable circumstances, and the stand is unusually fine and promising. On the Savanman river the area under cultivation is over 2000 acres larger than last year. Other sections also report decided increase in acreage, and the outcome, with fair ordinary season, ought to result in the largest crop since the war.

It is somewhat early to utter anything positive egarding prospects of the rice crop for the pres-

regarding prospects of the rice crop for the present year, as there are several factors of a temporary character which may be radically changed within the next few weeks. A portion of two large parishes devoted to rice to a great extent—St. John and St. James—are still partially overflowed, but being gradually uncovered, and if the water recedes daring the present month these lands will be planted. Heavy rains within the past few weeks, and usessomable cool weather have interfered wish planting, which had been retarded through fear of overflow. If there he any decrease in the river parishes, it will be to a considerable extent offset, if not more than overcome, by the greatly increased acreage in Calcasieu and other western parishes. Planting is now going on rapidly on segar lands which have been overflowed, and more will be taken up if lands dry sufficiently by early oreven middle of July. Many of the planters are favorably disposed to the bounty clause, and the opinion is quite generally expressed that if adopted it will atimulate the calture of cane on lands peculiarly adapted to the sugar crop, much of which has been devoted to rice since the war
